

Operating Systems Model Question Paper

1. Explain the process management in Operating Systems.
2. Explain CPU Scheduling algorithms.
3. What is Deadlock?
4. Explain Banker's Algorithm.
5. What is Virtual Memory?
6. Explain File Allocation methods.
7. What is a Semaphore?
8. Explain Process Synchronization.
9. What is Paging?
10. Explain Threads and Multithreading.
